

**Notice of Change in Glove Prices**

December 8, 2020

Virginia Industries for the Blind will be increasing prices on exam and medical gloves next month due to the cost increases from our sources. The worldwide demand for gloves has increased and the production of gloves is down due to the Covid-19 pandemic. We apologize for these increases and promise to continue searching the market across the world in an effort to provide our customers with the best product at the lowest price to meet their needs.

VIB thanks you for your trust in our goods and services as your purchases provide the funds we need to provide quality employment for qualified employees who are blind.
