

## PRODUCT INFORMATION

**MEDI-Scan FDA  
Approved  
Clinical Forehead  
Infrared  
Thermometer  
SKU# MS478IR**

Non-Contact Forehead IR Thermometer is specially designed to take the body temperature of a person regardless of room temperature.

Ensure accurate and stable body temperature readings, which is particular efficient for quickly screening the temperature of groups of people, newborns and very young children.

From a distance of around 2 in (5cm) all you have to do is point toward the forehead and read the temperature on the LCD screen.

- FDA Approved
- Precise non-contact measurements
- User selectable F/C
- Selectable Body & Surface temp
- Set Alarm Value
- Memorization of last 32 measurements
- Automatic Data Hold & Auto power off
- Backlight LCD display
- Includes 2 AA batteries
